

# CHAMBER OF MINES OF SOUTH AFRICA MEMBERSHIP COMPACT

*All Members of the Chamber of Mines South Africa (Chamber) shall automatically, upon accepting membership of the Chamber, become subject to this Membership Compact, as a condition of Chamber Membership.*

## INTRODUCTION

*The Membership Compact (Compact) is a mandatory code of ethical business conduct to which members of the Chamber subscribe.*

The overriding vision and mission of the Chamber is to reposition the South African mining sector as South Africa's pre-eminent industrial sector and to double real investment in mining by 2030. This is an industry strategy that will be owned by all Chamber members with the overriding objective of building a trust based social pact with key stakeholders, creating an overwhelmingly positive investment and operating environment for the sector that makes the global investment community and mining industry recognise that South Africa has emerged into an investment destination of choice for the mining sector. The benefits of achieving this vision are incalculable and will be a game changer for the country and its ability to achieve the National Development Plan (NDP) objectives, to which members of the Chamber subscribe.

## COMPACT OBJECTIVE

The primary objective of the members of the Chamber is to ensure that the mining industry is able to realise its latent growth potential and so contribute meaningfully to the national objectives for sustainable development, transformation and the growth of the South African economy. This can best be achieved through:

- Building trust relations with key stakeholders
- Transforming the mining industry
- Partnering with communities surrounding existing and future mining operations and those in labour sending areas

## COMPACT VALUES

Members are obliged to conduct their business according to the agreed Chamber values which dictate the minimum standards of conduct required of them in order to become a member of, or remain a member of, the Chamber. The five values of the Chamber are set out below.

## GUIDING PRINCIPLES

The guiding principles are a framework to enable the Chamber members to achieve the objectives of this Compact. Chamber members undertake to integrate the guiding principles into their management systems to ensure consistent application across all operations.

The following ten (10) guiding principles demonstrate the commitment of members to manage their operations in a responsible manner.

Members commit that in all aspects of their business and operations, they will:

1. Implement and maintain ethical business practices and sound systems of corporate governance
2. Strive to achieve Zero Harm in respect of mine health and safety by complying with the Mine Health and Safety Milestones
3. Integrate sustainable development considerations within the corporate decision-making process
4. Respect fundamental human rights and respect cultures, customs and values in dealing with employees and others who are affected by their activities
5. Implement risk management strategies based on valid data and sound science
6. Seek continual improvement of their environmental performance
7. Contribute to conservation of biodiversity and integrated approaches to land use planning
8. Facilitate and encourage responsible product design, use, re-use, recycling and disposal of their products
9. Contribute to the social, economic, and institutional development of the communities in which they operate, and in the labour sending areas
10. Implement effective and transparent engagement, communication and independently verified reporting arrangements with their stakeholders

## REGULATORY FRAMEWORK

Chamber members commit to compliance with all relevant legislation, and to making every possible effort to comply with meeting, or bettering, the targets outlined in the Mining Charter.

Chamber members also subscribe to the principles and commitments outlined in various agreements, such as the Presidential Framework Agreement for a Sustainable Mining Industry and the Framework for Peace and Stability in the Mining Industry.

## CHAMBER PROCESSES

Members of the Chamber recognise that the Chamber operates on the basis of mandates. While it is the case that positions adopted by individual companies must be aligned to their overarching strategic objectives and that these may differ from company to company, the positions adopted by the Chamber will apply to all its members. In this regard, the members of the Chamber agree that they will:

- Uphold the confidentiality of the discussions in the Chamber’s structures
- At all times engage honestly and in good faith
- Strive to reach agreed positions that will improve the sustainability of the mining industry
- Timeously provide information to the Chamber to allow it to develop well-informed positions for members’ consideration (the Chamber will treat sensitive information on a confidential basis)
- Respect the sanctity of mandated positions and not express contradictory views
- Accept that mandated positions can only be changed after any contrary views have been debated by the Chamber’s Council and agreed upon
- Undertake to support the Chamber’s mandated positions in outside structures and in the public domain

## COMPACT REVIEW

The Compact is a living document and will be continuously refined and developed following on consultation with members.

## BREACH

In the event that a member is found to have not complied with the Compact, the Chamber President will contact the CEO of such member to discuss the reason why the member is non-compliant and to agree on a process whereby the member can comply as soon as possible.

If the member fails to adhere to the process agreed upon and/or fails to take active steps to comply with the Compact within a reasonable time, the Council shall be entitled, at its sole discretion, to suspend the member for a period of time until the member complies with the Compact obligations.

Should the member continue with such non-compliance, the Council shall, in its sole discretion, either extend the period of suspension or cancel the membership of such member as provided for in article 19 of the Chamber Constitution. The cancellation of a member’s membership of the Chamber will be published on the Chamber website.
